

JayamSoft Global Service LLP

An IT solution partner for today and tomorrow

About Company

JayamSoft Global Service LLP is an innovative and quality driven IT services provider that believes in creating nothing less than delighted clients. We work with you not as a vendor but as your technology partner. We understand that our success depends on yours and we leave no stone unturned to deliver projects on time and within budget. We are committed towards delivering software applications and solutions of high quality.

We provide myriad services like website design and development, SEO services, e-commerce solutions, mobile applications development and custom software development. We offer scalable and robust solutions to allow any future re-development. We work towards exceeding client satisfaction by following transparent work practices and a client-centric work model that puts your needs at the center.

OUR VISION - To become a dynamic IT consulting partner with a focus on maximizing revenue for clients through top quality project / services delivery and cutting edge software technologies.

OUR MISSION - To be an organization that delivers projects to clients' specifications and satisfactions by working on the latest IT and software technologies in a work environment that nurtures the best IT talent and provides employees ample opportunities for personal and professional growth while delivering on all stakeholder expectations.

The Foundation of JayamSoft

In 2015, the company commenced with two young minds, each with a decade of vast experience in software development processes, and has delivered numerous successful projects with high client satisfaction. The company is dedicated to delivering the best-in-class IT services.

Forming a Limited Liability Company, JayamSoft Global Service LLP

In April 2016, the company has been registered as a limited liability partnership under the government act with over seven skilled engineers and has completed many successfully projects for various industries including diamond manufacturing, homeopathy clinics, textile industry, Start ups and other SMEs.

A Turning Point

In 2018-19, we achieved a new milestone by delivering a high value IT solution to Modification, Revamp & Upgrade Business Unit (MRU) of **L&T Heavy Engineering** for estimating project values by taking inputs from various vendors and services providers.

Increase new space

We expanded our existing space by opening our new office in January 2021, so that we can offer the best infrastructure and services to our employees and clients.

Timeline

Services We Offered

JayamSoft provides a comprehensive range of offshore web and software development outsourcing services. Listed below are the core areas that we provide our services in:

- Web & eCommerce Platform
- Android, iOS and Cross Platform App Development
- Desktop Application Development
- Customize Software Development
- Offshore Software Development Service
- Software Quality & Testing Service
- Oracle / SQL Database Performance Tuning
- Code Review Audit

We Are Committed To

Service quality generally refers to **a customer's comparison of service expectations as it relates to a company's performance**. A business with a high level of service quality is likely capable of meeting customer needs while also remaining economically competitive in their respective industry.

- Delivery high quality IT services
- Working on latest technologies
- Ensure First Time Right
- Assured Quality Check for every task
- Dedicated resource allocation toward project / services
- Well written codes with proper documentation
- Highest possible code optimization
- Quick support through email / teams / skype / telephone
- Weekly status reports
